

## New in Familypark: Long Summer Evenings

St. Margarethen, 9 June 2016: The newly opened attractions "crow's nest" and "frog hop" at the beginning of the season have already become audience favorites. For the summer, however, once more Familypark comes up with something new: On five Saturdays in June, July and August the park is open until 21 o'clock.

Especially in summer, Austria's largest leisure park is a popular destination for families with children of all ages. Thanks to the many water attractions it is easy to cool down on hot summer days. With small children guests are well-cared particularly in the shady oak forest, where they can visit the animals in the petting zoo or test the new attractions Krähenest (Crow's Nest) and Froschhüpfer (Frog Hop).

When climbing the Krähenest, you can look forward to a 40-meter long glissade. From 8 meters high, visitors slide down on one of 6 tracks on mats. The highlight of the attraction: The goats from the petting zoo "Aunt Mizzi's Little Farm" climb on boardwalks around the large slide area and can watch the children at the thrills. At the carousel Froschhüpfer the youngest guests can already ride together with their parents or grandparents at the edge of the pond on the backs of frogs.

### New Summer Highlight

If it remains light until evening in summer, many guests want to enjoy the atmosphere in the park longer. For this reason, this year there will be the "Long summer evenings" in the Familypark for the first time.

On every 2nd Saturday of summer, the park is open from 9 a.m. - 9 p.m. (tickets until 18:00) - at the regular ticket price.

**The dates: June 25, 9 & 23 July 6 & 20 August**

*"From Halloween, which we celebrate as our season closing for 2 years already, many guests know the park at night. Now we can present the Familypark to our guests in the summer until late evening. At this season, when everything blooms and greens, it is especially nice to see the sunset in the park. We want to share this experience with our guests," says Ulrike Müller, Director of the Familypark, about the new offer.*

**About Familypark**

The Familypark, M. Müller Ges.m.b.H, in St. Margarethen im Burgenland is Austria's largest leisure park. On an area of more than 145,000 m<sup>2</sup>, the park offers attractions in four different themed worlds: Adventure Castle, Farm, Fairy Forest and Adventure Island. In addition, the amusement park has 15 different catering areas. During the season, more than 200 employees are employed in the fields of rides, food, gardening, engineering and administration. 2015 the Familypark welcomed 517,000 people from April to early November and was able to issue a total of 20,500 annual cards.
